PROJECT

Task Management System, DG-FutureTech India Pvt Ltd [Link](#) Mar '23 — Aug '23

- Built an efficient Task Tracking/Work Management App with real time monitoring, smart resource allocation, and user-friendly interface.
- Enabled seamless task creation, assignment, progress tracking, and document management.
- Integrated notifications, reminders, and user authentication.
- Utilized programming languages, web technologies, and databases.
- Boosted productivity, customer satisfaction, and workflow efficiency.
- Technologies/Framework Used Spring Boot, MYSQL, React.js, Postman, REST APIs

AK Medical [Link](#)

Jan '25 — Jan '25

- Developed a comprehensive **Patient Management** system to store and search patient details (name, contact, medical info) with advanced filtering options.
- Implemented an intuitive **Billing System** displaying receipt details, including patient info, purchased medicines, quantities, prices, and total amounts with dynamic calculations.
- Utilized **ReactJS** for a responsive frontend, ensuring seamless user experience across devices.
- Integrated **Node.js** backend to manage patient data and process transactions securely.
- Automated **Sales Reporting** functionality, generating reports based on daily, monthly, and yearly data, dynamically fetched from the database.

SKILLS

Language Proficiency English, Hindi, Marathi

Technical Skills Java, MYSQL Database, Windows, Linux/Unix, Spring Boot, React, JSP, Servlet

Soft Skills Time Management, Team work, Quick Learner, Hardworking
